PORT ARTHUR, ONT.

STEAMING in from the blue waters of Lake Superior, past the towering heights of Thunder Cape, the visitor sees, lying before him, on the level water front a busy scene of commerce. Modern lake steamers from all parts of the lakes and eastern ports loading and unloading their merchandise. The pleasure crafts, both steam and sail, put out from the numerous private docks for excursions down the bay. Back of the shipping and commercial districts the modern city of Port Arthur, with its beautiful drives and comfortable homes, lies on a gradually rising slope of ground, where the visitor can enjoy all the conveniences of a modern city, and at the same time the pleasures of splendid fishing in the numerous streams, which abound within easy access, hunting of big game and small in their various seasons, Golf Links, Tennis Courts, beautiful Automobile Runs through picturesque country teeming with historical interest pertaining to the early days when the voyageours blaized their trail from here to the west, in a climate where no Hay Fever exists, and which is blessed by nature with more than the ordinary amount of sunshine, where the days are comfortably warm, and the nights invariably cool and refreshing. -:- -:- -:-

¶ Numbers of places of interest are within short distance both by boat and automobile, such as Silver Island, the richest silver mine in the world, which was practically a block of silver poking its nose above the waves of Lake Superior, and Kakabeka Falls, over 110 feet in height. Mountains surround the city, all worthy of the mountain climbers' attacks, and from which the climber is reimbursed for his efforts by the magnificent panoramic view which spreads out before him. -:- -:- -:- -:- -:- -:-
